CAPP Students

If you have completed or are currently enrolled in a CAPP (Cooperative Academic Partnership Program) English, math or foreign language course for credit through UW Oshkosh and have also completed placement tests for that subject, you are exempt from taking the placement test in that subject.

If you did not take a placement test prior to enrolling in a CAPP course, you will need to complete a placement test in that subject prior to Odyssey.

Although official grades for CAPP courses are not posted until after the course has been completed and grades have been submitted by your high school, the posting of CAPP involvement on your student record will be used to place you in the appropriate level course on your Odyssey date.
